X	General	Netaji Subhashchandra Vidyalaya, Ambajogai	Maharashtra State Board	2016	70.4 %	I

Academic Projects

Title : Electrical Appliance's Maintenance and Servicing System

Platform : ReactJS, Spring Boot, Mysql

Duration : 2 Months

Description : Electrical Appliance's Maintenance and Servicing System is a full stack application using bootstrap, ReactJS as frontend, spring boot as backend and Mysql as the database. This application allows the customer to book servicing for their electrical appliances like for example: air conditioners, refrigerators, televisions, electrical ovens. After giving the necessary information, an appropriate vendor from that particular area where the user stays should be appointed for servicing. This application is designed to be user friendly, efficient and scalable providing a streamlined experience for both customer and vendor.

Title : Pneumatic Power Hammer

Platform : Hardware

Duration : 3 Months

Description : Pneumatic hammer uses compressed air to hammer metal and other materials. It is a tool generally used to shape surface area, cut through a surface. This automated Pneumatic hammer machine consists of a pneumatic cylinder, metal links attached on the backside of hammer. The hammer is mounted on the frame with the help of bolt in such a way that when the pneumatic cylinder will be actuated the hammer will swing and hammering will be done.
